

ENVIRONMENT & SUSTAINABILITY POLICY

INTRODUCTION

Martin Wright Associates recognise that our actions and our way of working has an impact upon the environment, both locally and globally. We are committed to minimising, within the constraints imposed by financial sustainability, any negative effects the delivery of services might have. This policy statement details the nature of this commitment.

The Principles

Martin Wright Associates will:

1. Comply with all relevant UK and EU environmental legislation.
2. Develop an Environmental Management System that seeks to manage environmental risk and continually improve environmental performance.
3. Through development and training engage staff in the critical debate on environmental issues.
4. Minimise waste and pollution through sound purchasing strategies, waste reduction, and effective operating procedures.
5. Maintain an environmentally sound waste management procedure which promotes recycling where possible.
6. Adopt an environmentally sound transport strategy.
7. Give appropriate consideration to the environmental credentials of suppliers when purchasing products and services.
8. Maintain MWA grounds and buildings in an environmentally sensitive way having due regard to fragile habitats and the enhancement of biodiversity.
9. Work with others at local and national level to promote and develop environmental good practice.

All employees of Martin Wright Associates have a very important role in co-operating with those responsible for safeguarding the environment. Individuals are required to abide by rules and requirements made under the authority of this policy. Martin Wright Associates will continually monitor and review its procedures in respect of its commitment to sustainable development.

This policy will be reviewed annually and revised as appropriate.
